

PUL Masters Division Survey Results

SUMMARY OF RESULTS PRESENTED TO THE MEMBERSHIP

DECEMBER 2018

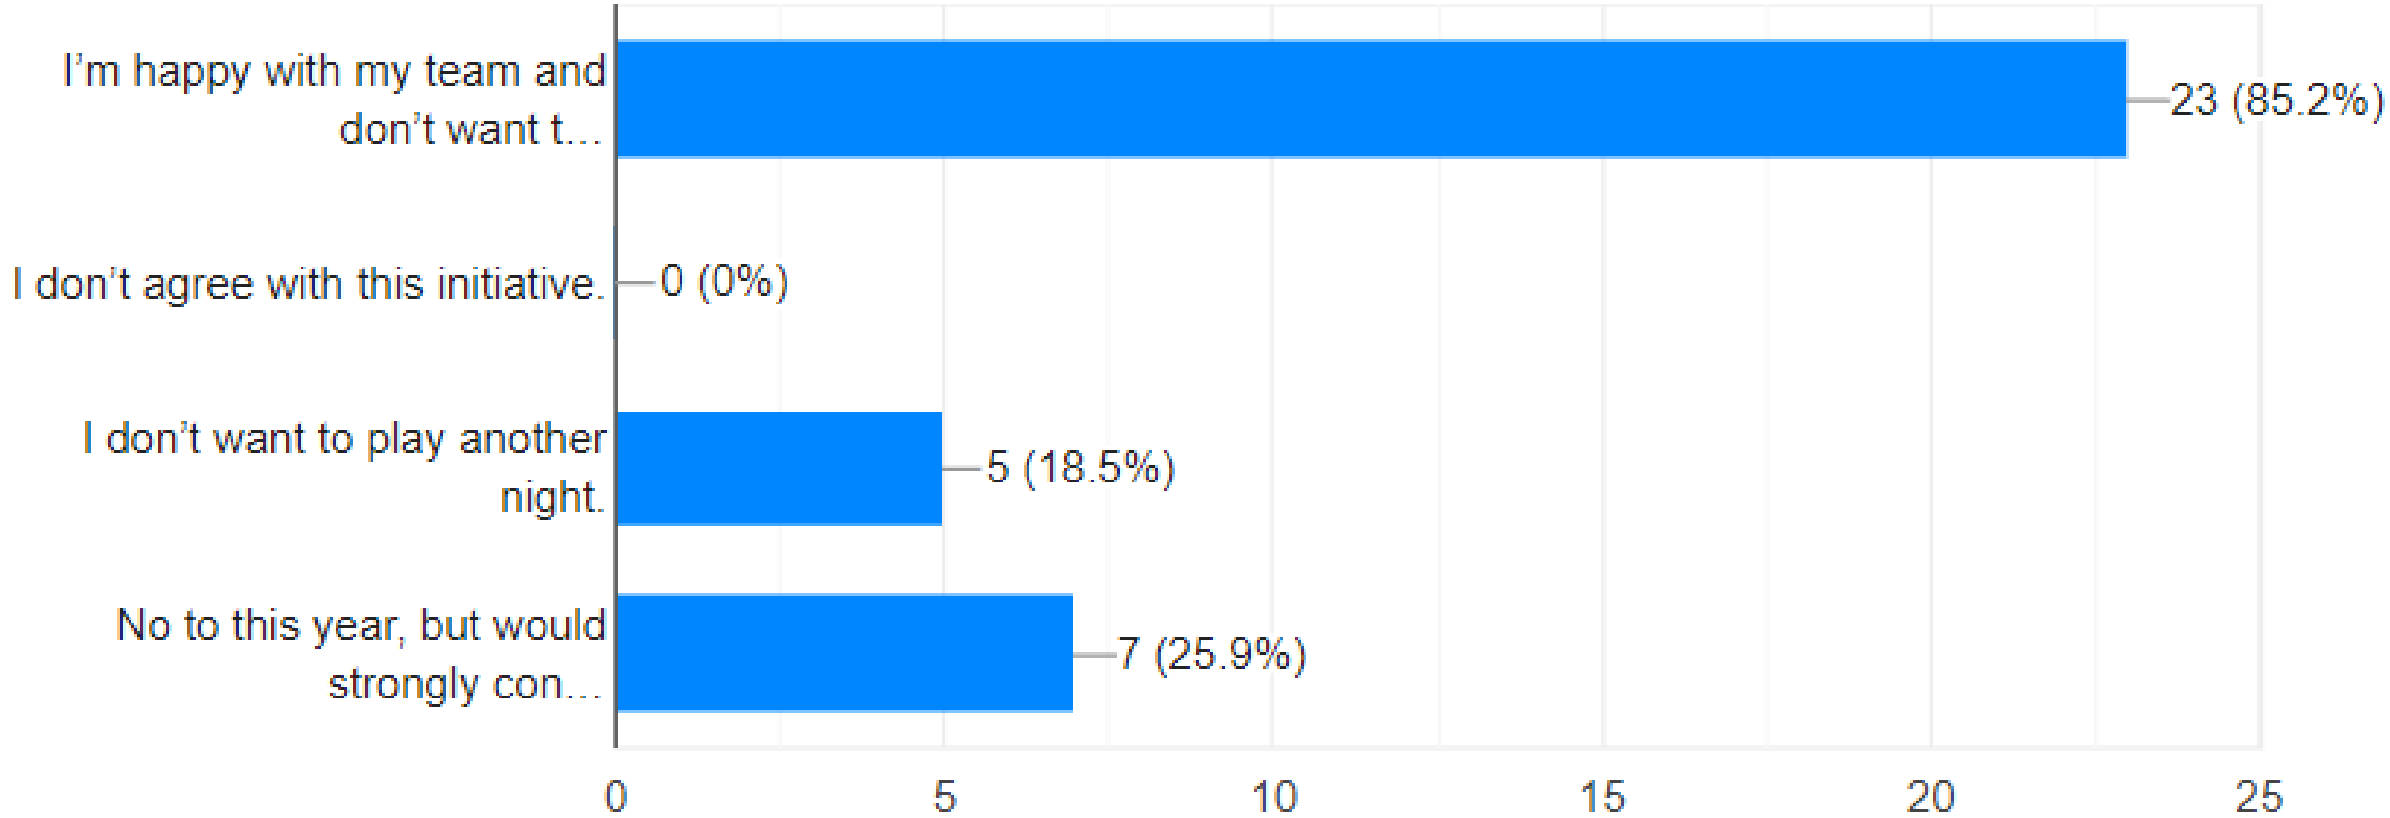

Would you be interested in playing in a Masters Division (W35+/M38+) for Summer League 2019?

112 responses

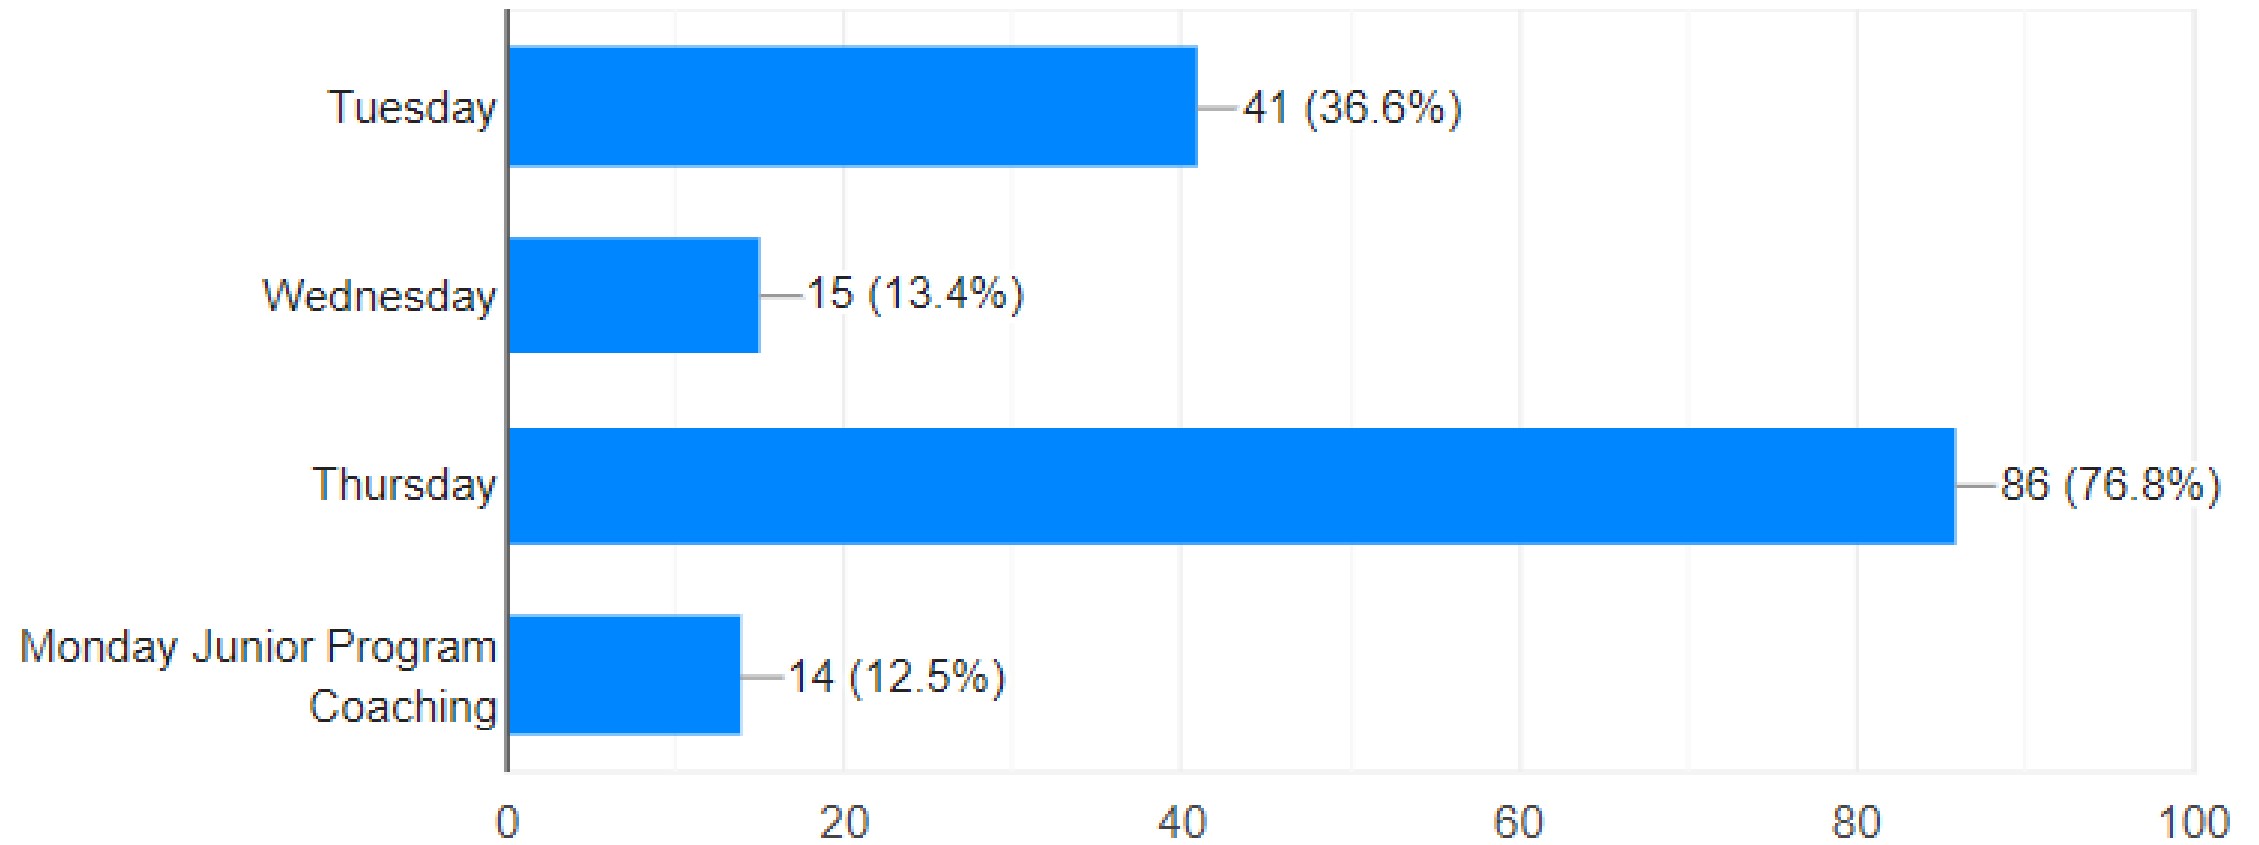

If no, thanks for your time. Please just indicate your reason(s). Click all that are relevant. Carry on with the survey if you care to, however.

In which nights do you currently participate in the PUL Summer League?

112 responses

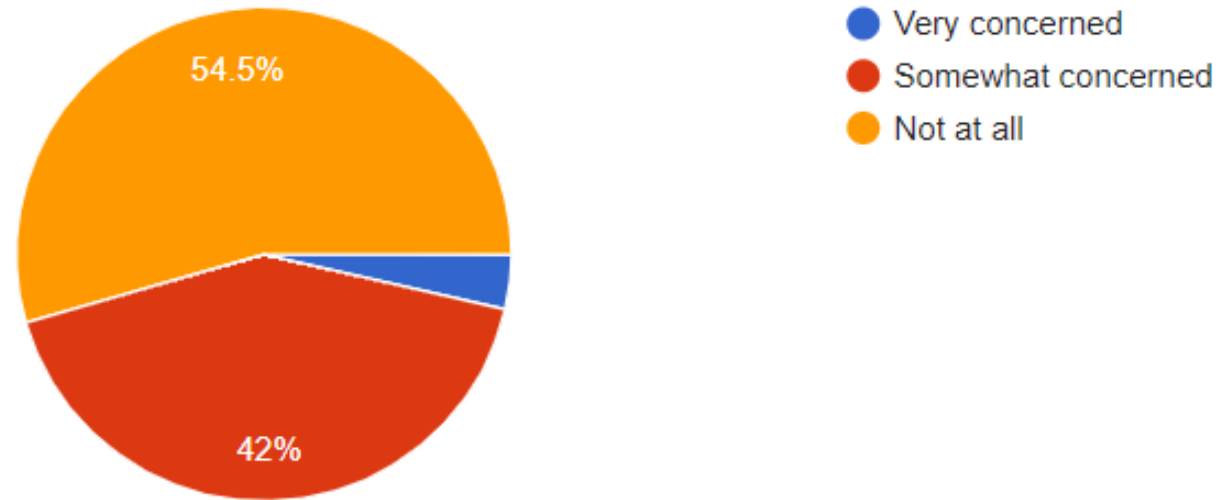

Three teams from Thursday have already indicated that they would be interested in exploring this arrangement. Do you have concerns that this may compromise the Thursday league if they moved to a separate division on the same night?

112 responses

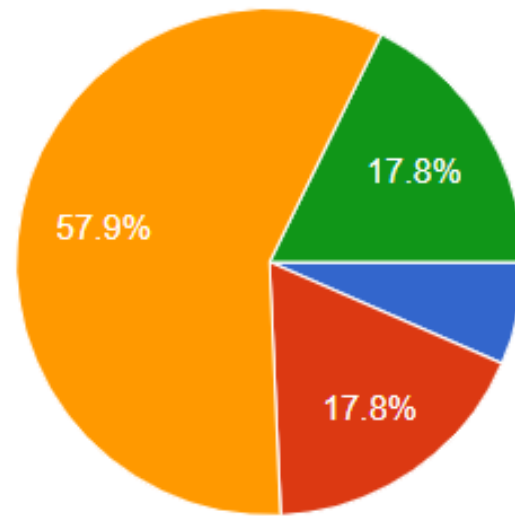

Do you have concerns that given the option, individual players will opt to leave teams and join this division and leave their old teams needing to recruit?

112 responses

Do you have concerns about your own roster being compromised if this option were available to players?

- Yes, our team would not be able to fill a roster
- Yes, but I think our team can fill our roster.
- No, but it could impact some teams
- No, not an issue

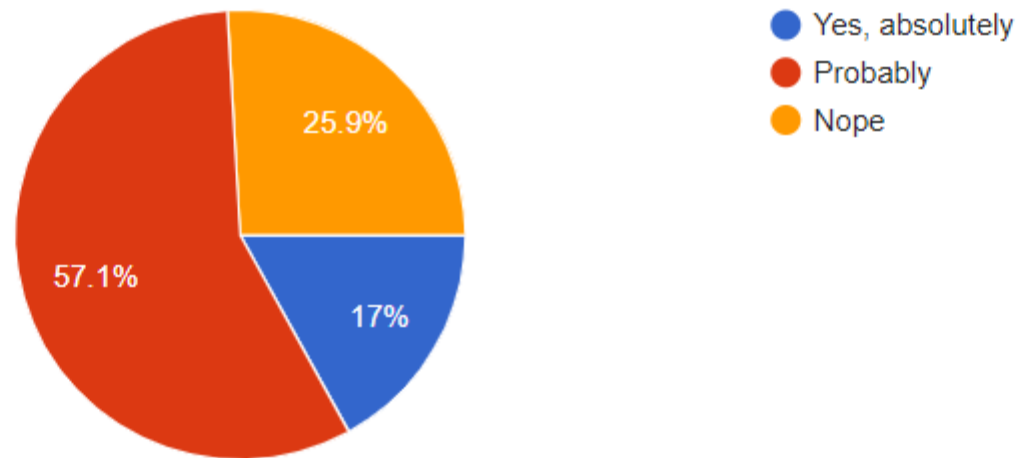

Do you think the proposed ages (W35+, M38+) are too young?

For this Masters Division we would like this to be a gender parity division. Gender parity means that one endzone would be designated the team's choice for the point and could decide if they want to field a 4M:3W arrangement or 4W:3M arrangement. Rosters, therefore, would likely be equal in numbers. Do you think you will be able to field a team with an even gender number?

If this division were to be formed, would you register as an individual to be placed on a team, be part of an already established team that would migrate to this division, or sign up with a collection of friends/teammates to play together?

112 responses

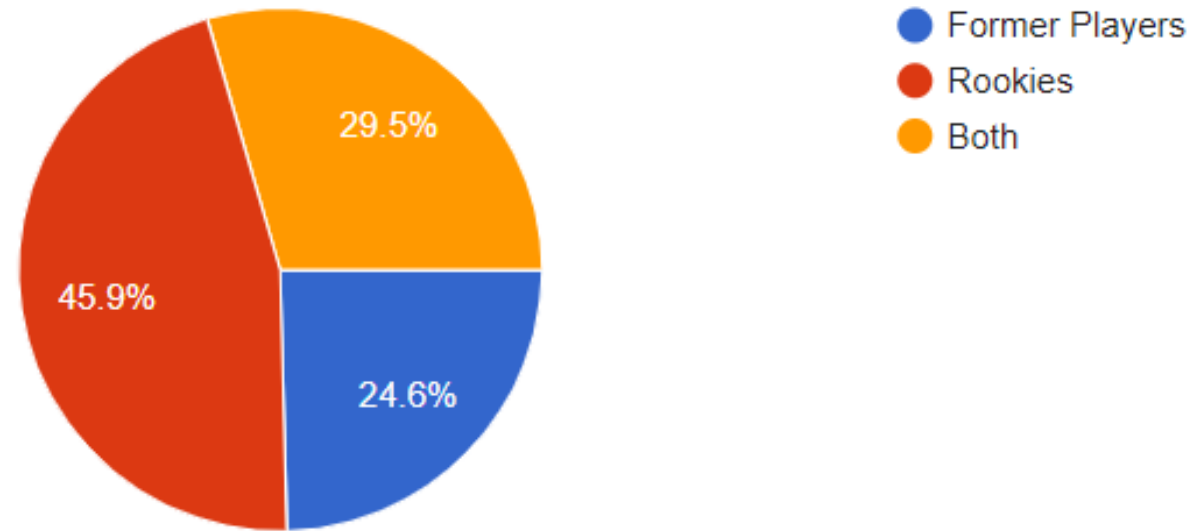

Do you have colleagues who would potentially be interested in playing in such a division who are not currently PUL members?

112 responses

If 'yes' or 'maybe' to the above question, would they be former ultimate players or rookies?
